

# VHR 1500

Flat top surface

Tilting angle 165°

Stepless adjustment of all positions

## Information

The VHR-serie of positioners has been designed in close cooperation with welders to suit industrial operations involving welding.

The VHR positioner is also ideal for assembly work, grinding etc.

The VHR is the positioner that solves the problem of achieving the correct position when working with workpieces that are difficult to handle.

Lifting, turning and tilting to an ergonomically appropriate working position can be controlled steplessly.

All functions can be remotely controlled with a 24 V control signal.

Pedal for starting and stopping the rotary feed.

The welding earth for the work table is separate from the electrical protective earth.

### Technical data VHR 1500

Height of work table	700 – 1400 mm
Table diameter	1100 mm
Max. horizontal load on table	1500 kg*
Speed of rotation	0,1 – 1,5 RPM
Tilting time (0° – 90°)	18 s
Max. tilting angle	165°
Max welding current	650 A
Remote control signal	24 V
Length x width	1700 x 1250 mm
Weight	1375 kg

\* at 200 mm lifting point distance
